

THE WORLD OVER

CHINESE-JAPANESE CONFLICT

BENNETT THE DICTATOR

THE LINDBERGH KIDNAPPING

The Chinese and Japanese still continue to fight although no war has been declared and every effort has been made to establish peace. An agreement was reached to stop the fighting at one time, but in that part of the world it seems that one nation does not believe the further further than the eye perceives and one country will not withdraw their troops till the other does. Thus the conflict continues in spite of the concerted action of every member of the League of Nations. An armistice may be signed but we are all from Missouri and will not believe that peace has been restored until all troops have been withdrawn from the battlefields.

Premier R.B. Bennett has been accused recently with being a dictator, by more than one person, and direct examples of dictatorship on his part go to prove their claim. Recently the Montreal Witness flailed the Prime Minister for his "Mussolini tactics" when he would not let an independent member introduce a bill in the House of Commons. He had no right according to Constitutional to do this. Again Mr. Lapointe in the House the other day arose and directly accused Mr. Bennett of being a dictator when he spent money for unemployment and other needs without first consulting Parliament about the matter. We do not want a dictator in Canada. We do not believe the Conservatives in Canada want a party leader to be a dictator and we do not think that Hon. R. B. Bennett will continue long under the Premiership of Canada unless he changes his tactics and gets down to business under the British Constitutional laws.

The entire English speaking population of the world has been shocked at the kidnapping of the 20-months' old son of Colonel and Mrs. Charles Lindbergh, which took place more than two weeks ago. When the act was executed the culprits left a note demanding \$50,000 ransom. Since that time the amount demanded by the kidnapers has been increased and the Lindberghs have agreed to pay the amount for the return of their child. And all the time, no doubt, the kidnapers are just marking time by having someone send their ransom notes, while they are making their getaway to some far-distant abode, where they expect to be safe from all police officers. But this does not alter the fact that the child has not been returned, nor the kidnapers discovered, although the best detectives in the United States are working on the case. It appears that the law breakers have got hold of

DAPHNE NASH OPENS NEW STORE

Miss Daphne Nash has opened a new store in Carbon in the old location of the C.H. Nash Grocery Store on the corner, and the store is now open to the public, although all the new stock has not arrived. The new store will handle principally ladies goods and ladies' Dresses and coats will be carried in stock, so that the women of Carbon will not have to go to Calgary for their Easter clothes. Besides the line of clothing a stock of yard goods is being carried.

Saturday, March 19th has been the day set for the official opening day and many specials are being offered to the buying public.

GOVERNMENT TO GIVE SEED

\$6,000,000 FOR SEED FOR WESTERN FARMERS THIS YEAR

Six million dollars will be loaned by the Dominion government to prairie farmers to enable them to purchase seed grain and care of their stock. Premier R.B. Bennett stated in the House of Commons recently. Of this the bulk will be distributed in Saskatchewan; Alberta will get about \$1,400,000 and Manitoba \$700,000. The cost will form part of the general unemployment scheme.

CANADA TO CO-OPERATE IN PEACE PARK

Canada is to co-operate with the United States in the creation of an international peace park at Waterton lakes. Formal notice of this co-operation was given in the House of Commons last Tuesday by Minister of the Interior T.G. Murphy. The bill giving the required legislation will be the counterpart introduced in the United States, and which is now before the United States Senate.

more than they bargained for and they are dubious about returning the babe to its parents for fear of being detected. They have, in other words, got hold of a live wire and cannot let go until the current is turned off, or in this case until all means of detection have been banished by the government and an order given for their freedom should they return the child unharmed.

Since writing this a newspaper report states that the kidnapers are in Canada, or heading this way—which goes to prove our theory. In Canada, however, they will have to face a world famous police force and they will not be able to pull the wool over the eyes of the R.C.M.P.

ALBERTA NEWS

The Gleichen curling club has signed off for the winter. All the curlers think they have had enough curling till the next season arrives, according to the Call.

Johnson Brothers saw mill, 30 miles west of Macleod was destroyed by fire Sunday morning, the loss being approximately \$10,000 with no insurance.

Effort will be made by the government to curb the abuses to which gasoline refunds have been put and to bring within the scope of auditors those who have endeavored to evade such tax collections.

Found guilty of obtaining a five-cent bonus on 1930 wheat, the bonus only applying on 1931 wheat, F. W. Hancher of Rimbey was fined \$25 and costs. This should be a warning to others.

The Hanna Chamber of Commerce has forwarded a request to the Dominion government to change the wheat bonus payment from 5 cents per bushel to the effect that all grain growers be recompensed to the minimum of \$1 per acre seeded so that all those who have received no bonus and all those who would not otherwise receive this amount should be treated fairly, and that no bonus be paid to growers whose crops exceed 20 bushels to the acre.

Twenty students are receiving training in flying from the company at the Calgary airport, it was stated Friday by Earl B. Stinson, operating manager of the Chinook Flying Service Limited. He declared that a revival in air activities in Calgary appeared to have taken place.

The graveling of the new road between Beiseker and Elnora has been completed to about five miles north of Swallow and the loading outfit has been moved to Three Hills.

It is reported that the Cartier Oil well west of Olds is now down to a depth of 2,000 feet.

Granum district contributed 700 bushels of wheat to the Red Cross. The C.P.R. transported it free to Calgary, and Spillers mill ground it free, while P. Burns and Co. gave free storage.

Hans Jensen died at Aetna, near Cardston, on March 5th, at the age of 104 years, 2 months and 2 days. He was believed to have been the oldest person in Alberta.

A flea and an elephant walked side by side over a little bridge. Said the flea to the elephant after they had crossed it: "Boy, we sure did make that thing shake."

MIGRATING B.C. CRABS COVER MILE A WEEK

Studying the migratory movements of Pacific coast crabs last year in the course of investigations designed to assist the fishery, a scientist, working under the Dominion Government, discovered that some of the crustaceans travelled about at the rate of three miles in as many weeks. Standards of speed differ perhaps in different branches of the animal kingdom. All told, some 800 crabs were tagged in the effort of the investigator to gather data as to the course of crab wanderings in British Columbia waters.

PUBLIC NOTICE

Public notice is hereby given that all owners or harbourers of Dogs must procure a license for same. Dogs found without a tag within the Village limits will be impounded and afterwards destroyed.

License fee for a male dog is \$1.00, and for a female dog \$4.00.

ALEX REID,

Secretary-Treasurer

READ THE ADVERTISEMENTS

STUDENTS WILL ESCAPE EXAMS

Following the precedent established last year, students in the eighth and ninth grades will not be required to write departmental examinations for promotion in June, according to word received from the Department of Education recently. In cases where teachers do not feel justified in promoting test papers will be furnished by the department but the papers will be marked by the schools.

The only marking of papers to be done in these grades by the department will be in the case of a private student not in regular classes.

MEETING OF THREE HILLS PRESBYTERY

The Presbytery of Three Hills met in Delburne United Church on Wednesday, February 17th. The ladies treated them to a turkey supper at 6.00 p.m., served in the Manse, and the men of the town gave the Presbytery a very interesting game of curling.

The choir of the Church supplied some excellent music at the public meeting held at 8.00 p.m., when Rev. C. R. Concoran of Three Hills gave an enthusiastic address on Religious Education and Rev. R.W. Hibbert presented his lantern lecture on "Whither Alberta."

Rev. Jacob Redberger applied to be received into the United Church and his name was forwarded to the Conference with the Presbytery's endorsement.

Although money is scarce, yet the Presbytery raised over \$1200 for M. & M., a gain of over \$200 over last year. A gain of 44 members on a session of their faith was reported. Acme also reported that they were self-supporting this year.

The following were appointed as lay representatives to Conferences—J. A. Davis, Carbon; J.C. McNair, Bashaw; L.B. Hart, Carbon; A.W. Kitchen, Delburne; Mrs. Oakley, Elnora; J. F. Flewelling, Mirror; Dr. Sawdon, Three Hills, and C.S. Marzochian, Trochu.

Dr. Sawdon and A.W. Kitchen were nominated as lay delegates to the General Council which is to meet in Hamilton next fall, one of whom is to be elected by Conference. Rev. E. T. Schrag of Medicine Hat was nominated

FIRST MEETING OF M.D. COUNCIL

The first meeting of the newly elected Council of the Municipal District of Carbon No. 278, was held in the Municipal office at Carbon on Monday, March 14th. Mr. S. N. Wright, who has held the office of Reeve for the past 19 years was re-elected for the current year by unanimous vote. Mr. Wright has been on this Municipal Council for the past 21 years. Mr. G.H. Webber has been on this Municipal Council for the past 18 years and has been deputy reeve for a number of years. He was re-elected Deputy Reeve at this meeting. The personnel of the new Council is as follows:

Division 1, S.N. Wright; Division 2, Gottlieb Ohlhauser; Division 3, W. H. Levins; Division 4, Harold Offer; Division 5, H.H. Crowell; Division 6, G. H. Webber.

Dr. G.L. McFarlane of Carbon was appointed Medical Health Officer and Mr. H.W. Braden was appointed Weed Inspector.

Pound Keepers were appointed as follows:

Division 1, L.B. Hart; Division 2, F. G. Ohlhauser; Division 3, J.W. Talbot and G.C. McCracken; Division 4, Emanuel Sailer; Division 5, W.M. Ferguson and Charles Andrew; Division 6, E.A. Brewer.

The Secretary-Treasurer was instructed to obtain information from the Department of Agriculture regarding a supply of seed oats for this year.

The matter of a tax sale on account of arrears of taxes is receiving the serious consideration of the Council, but this matter was tabled until the next meeting.

The Secretary-Treasurer was appointed a delegate to attend the annual meeting of the Municipal Hall Insurance Board, which will be held at Calgary on the 16th instant.

The Council decided to hold regular meetings on the first Tuesday of each month at 2 p.m. The Reeve was given authority to postpone these meetings at any time, if he deemed this action necessary.

for the next president of Conference.

A resolution on raffling received the attention of Presbytery, and the stand of the United Church in opposition to raising any church funds in this way was heartily endorsed.

The twins had been brought to be christened. "What names?" asked the clergyman. "Steak and Kidney" the father announced. "Bill you fool," cried the mother. "It's Kate and Sydney."

The Problem Of Debt

The one question, above all others in importance, that is engaging the attention of the people of Western Canada, and of the farming class in particular, is as to how they are going to pay their accumulated burden of debt. As a result of drouth conditions extending over two and three years with partial or complete crop failures, and with prevailing world prices for such crops, live stock, dairy and poultry products as they did produce below the actual cost of production, tens of thousands of farmers have been forced to use all the reserves they may have had, and have gone deeply into debt.

They find themselves in the position, where, having purchased land and equipment during the war years, and in the post-war period when high prices prevailed, and when wheat sold around \$1.50 to \$2.00 a bushel, they are now being required to pay these inflated obligations with wheat at 50 cents a bushel, and in thousands of instances with no wheat at all to sell. Instead, therefore, of being able to gradually get out of debt, they find themselves getting deeper and deeper into debt, with little or no prospect of ever being able in their lifetime to get free of it.

Consequently, the relationship of themselves to their various creditors, the appalling interest payments confronting them, the practical impossibility of meeting their obligations, and the alternative possibility of losing their homes, constitutes a veritable nightmare of worry. They feel themselves confronted with the probability that, in the event of harvesting a good, or even fair crop, this fall, their creditors will swoop down on them and gobble everything up, thus leaving them in their present predicament of having nothing wherewith to maintain their families in decency and comfort and "carry on."

So, inevitably and naturally, everybody is seeking for a solution, and suggestions without number are being advanced. Many, of course, are utterly impracticable; others are economically unsound and would ultimately result in intensifying the difficulty rather than solving it; others, again, offer some hope.

It will be recalled that, following the war, Germany adopted policies which resulted in converting hundreds of millions of marks issued during the war to its own people into so many worthless pieces of paper. France deliberately depreciated its own currency, the franc, to such a low figure as to accomplish the same result. In its present financial emergency, Great Britain went off the gold standard, and its money took a tremendous drop in value almost overnight. Now the United States, also faced with a financial emergency, has gone in for "inflation" of its currency, or "reflation," as they are now pleased to term it, with a view to thawing out its huge amounts of frozen credits, and to put a larger supply of currency in circulation. All these expedients have a temporary effect, but the fact remains,—it is an economic truth,—that if anything is inflated it must sooner or later be deflated again. In the end there must be a "writing down" or a "writing off" of liabilities beyond the ability of the debtor to pay.

Sooner or later some portion of the indebtedness of thousands of Western farmers must be written off, and the sooner the better for all concerned. A merchant is forced into bankruptcy, and pays fifty cents on the dollar. He is then free to make a new start, albeit his credit will not be as good as before. If a mortgage or loan company forecloses on a farm property and takes it over, it must ultimately re-sell that farm to some one else. It is almost certain that it will have to take a loss, selling the farm for less than the original liability against it. Would it not, then, be good business on the part of such loan or mortgage company to take the same loss, or even a somewhat larger one, right now, by consenting to a writing down the present farmer's liability to a point where he has a chance to "carry on" and pay? The property would thus once again become revenue producing to the company, although not perhaps to the extent originally expected. Nevertheless the company conceivably might otherwise have the land on its hands for some time, a bill of expense for taxes, etc. Surely, it would be better business to keep the present owner on the land in a position where he can add his mite to the general productivity and prosperity of the country.

One suggestion that is receiving increasing attention and support is that existing farm debts should be capitalized and amortized, that is, that payments of equal annual instalments covering both principal and interest spread over a term of years, 15, 20, 25 or 30 years, should be agreed upon. Surely, such a plan can be worked out without undue loss to anybody, and in such a manner as to ensure tenure of their homes to present occupants and an opportunity to ultimately free themselves of debt.

Unless something of the kind is done, it is almost a certainty that many Western farms will either be abandoned, or will pass through foreclosure proceedings, from their present owners and possibly remain idle in the hands of loan and mortgage companies, or as tax sale properties held by municipalities, for a goodly number of years to come, thus seriously retarding the production and development of the country, and imposing a check upon the prosperity of all, individuals, corporations and governments alike.

If it were possible to reach the moon, an adult weighing 175 pounds on earth would weigh only 29 pounds on the moon.

Never make fun of simpletons, for Plutarch tells us that wise men learn more from fools than fools from the wise.

Simply a Parasite

Peddler Is Of No Assistance To Any Town

The peddler does nothing to support the town he enters. He leaves to others the matter of paying for the roads, the sidewalks, the water service, the lights, the fire protection, and various other services that must be maintained in any town. He does not assist in the maintenance of local schools, community organization, sports, relief or anything else essentially local. So far as the local community is concerned, he is simply a parasite.

"THESE HARD TIMES"

"The hard times and scarcity of money makes it more important than ever to economize. One way I save on clothes is by renewing the color of faded or out-of-style dresses, coats, stockings, and underwear. For dyeing, or tinting, I always use Diamond Dyes. They are the most economical ones by far because they never fail to produce results that make you proud. Why, things look better than new when redyed with Diamond Dyes. They never spot, streak, or run. They go on smoothly and evenly, when in the hands of even a ten year old child. Another thing, Diamond Dyes never take the life out of cloth or leave it limp as some dyes do. They deserve to be called 'the world's finest dyes!'"

S.B.G., Quebec.

Tells Dyspeptics What To Eat

Strict Diets Often Unnecessary

It is a well known fact that some foods have a strong tendency to produce excessive stomach acidity and consequent indigestion. By omitting from daily meals those foods that experience proves do not agree and limiting the diet to certain tasteless unappetizing foods, stomach troubles may in many instances be slowly overcome. Nine times in ten, however, indigestion, gas, etc., are due to excessive acidity and the premature souring of food in the stomach. Keep the stomach clean and sweet by freeing it of this extra acid and then sufferers can eat the foods they like best and as much as they want in reason and have no stomach trouble at all. Thousands of people do this daily by merely taking after every meal a little Blaurated Magnesia, which can be had at any good drug store in either powder or tablet form. Blaurated Magnesia instantly neutralizes stomach acids, stops food fermentation and meals digest as naturally and painlessly as in the stomach of a healthy child. Stomach comfort means a lot and most folks like good things to eat. Enjoy them both by making Blaurated Magnesia your daily after-eating protection.

London now has 7,200 miles of water mains, 7,000 miles of gas pipes and 2,500,000 miles of underground electric wires.

For Both House and Stable.—There is a good deal of similarity, physically speaking, between human beings and the lower animals. Both are subject to many ailments arising from inflammation and to all manner of cuts and bruises. Dr. Thomas' Electric Oil is an entirely reliable remedy for such ailments and mishaps in both human beings and the lower orders of animals.

Russian Workers Dissatisfied

Out of 31,000 workmen in the Moscow coal region 28,000 ran away during the past year; in five months out of 12,000 men working in the Ural coal mines 11,000 ran away. At the Tsaritsin motor works, which employs 7,000 men, there were only 142 employed a short time ago, the remainder having run away.

Nothing As Good For Asthma. Asthma remedies come and go but every year the sales of the original Dr. J. D. Kellogg's Asthma Remedy grow greater and greater. From \$500 To Fortune

President Of Biscuit Company Tells Success Story and What Consistent Advertising Will Do

A romance of modern business that should be an inspiration to every small store-keeper was told to newspaper men today (Friday, February 26th) by Mr. C. E. Edmonds, President of Christie, Brown and Company, Limited, who is completing his fifty-sixth year of service with the company.

Mr. Edmonds, who can recall personally much of the rise of the Christie, Brown organization, told how the giant biscuit company was started in a small store on Yonge Street, Toronto, by two men with a working capital of probably not more than \$500. Today the business they founded is capitalized at millions of dollars and is the largest industry of its type in Canada. It has two manufacturing plants in the East, another—the million dollar Winnipeg plant opened last week—in the West and thirteen distributing branches from Halifax to Vancouver.

The simple history of Christie, Brown and Company as told by the active veteran president is this: The business began in 1849 when two young men, James Mathers and Alexander Brown formed a partnership in a small store in Toronto to make biscuits. They had with them as assistant salesman, William Christie, who was destined to become a partner and eventually play an important part in Canada's biscuit making industry.

The biscuits sold from this small bakery became popular with a limited clientele and the business began to progress. Four years later Brown and Mathers retired and the business was handled by young William Christie. Mr. Brown, however, re-entered the company in 1861 and the name, Christie, Brown and Company, Limited was adopted.

Confederation of Canada in 1867 found the business firmly established as one of Canada's coming concerns. In 1871 and again in 1874 larger premises were necessary and it was symptomatic of the sales energy behind the organization that the first trans-Canada train had a Christie representative on board.

From that point the business has never looked back until today Christie Biscuits are known round the world. The original store in Toronto has been replaced by three factories, one occupying nearly a whole downtown block in Toronto, the second Toronto factory occupying many thousands of square feet of floor space and the third, the new Winnipeg plant, is acknowledged the finest biscuit factory on the continent.

The original plant turned out a very small variety of biscuits. Today over 500 lines are marketed.

And here, according to Mr. Edmonds, is the real key to success in the Christie, Brown organization. It has consistently maintained a high standard of quality in its products and has advertised steadily in good times and bad, using newspapers from coast to coast, year in and year out.

Miller's Worm Powders act so thoroughly that stomachic and intestinal worms pass from the child without being noticed and without inconvenience to the sufferer. They are painless and perfect in action, and at all times will be found a healthy medicine, strengthening the infantile stomach and maintaining it in vigorous operation, so that, besides being an effective vermifuge, they are tonic and health-giving in their effects.

Engineer Was Humane

Travelled Sixty Miles To Free a Trapped Dog

Engineer A. W. Paxson sat idly at the cabin window as the train roared past Bunker Hill in Indiana, thinking of little but the running of his huge locomotive.

Then he noticed in a barb wire fence that paralleled the railroad track, a hound dog struggling and unable to extricate its foot from the wire.

When the train arrived at Logansport, Paxson turned it over to another engineer, took an automobile and drove 30 miles to Bunker Hill to free the dog.

Worms sap the strength and undermine the vitality of children. Strengthen them by using Mother Graves' Worm Exterminator to drive out the parasites.

Miss Campbell's Recipe for Cup Cakes

3/4 cup butter	2 cups pastry flour
1 cup sugar	(or 1 1/2 cups bread flour)
2 eggs	
1/2 teaspoon vanilla extract	3 teaspoons Magic Baking Powder
1/4 teaspoon salt	1 cup milk

Cream butter thoroughly; add sugar a little at a time, beating well. Add yolks of eggs and vanilla; beat well. Sift flour with baking powder and salt, and add, alternately with milk, to first mixture. Fold in stiffly beaten egg whites. Bake in greased cup cake tins, or in paper baking cups, in moderate oven at 375° F. about 25 minutes. Serve warm from the oven, sprinkled with powdered sugar. Or cool, and frost the tops. You will find many delicious frosting recipes in the Magic Cook Book.

"Cup Cakes are delicious when made with Magic Baking Powder,"

says Miss Helen Campbell, Director of The Chatelaine Institute

"Good baking goes hand in hand with good materials," Miss Campbell will tell you.

That's why Magic Baking Powder is used and recommended by The Chatelaine Institute. Magic meets all the Institute's rigid requirements of fine quality—repeated tests have proved it absolutely pure, uniform and dependable.

The majority of dietitians and teachers of cookery throughout Canada plan their recipes for Magic. They use it exclusively because they know it gives consistently better results.

And 3 out of 4 Canadian housewives say Magic is their favorite. It outsells all other baking powders combined.

Remember—substitutes are never as good. Do as the experts do. Use Magic Baking Powder.

Free Cook Book—When you bake at home, the new Magic Cook Book will give you dozens of recipes for delicious baked foods. Write to Standard Brands Limited, Fraser Avenue and Liberty Street, Toronto, Ontario.

CARTER'S LIVER PILLS

Manitoba Government Will See That Development At Churchill Will Be Along Proper Lines

Churchill, baby of the pioneer towns of the north, is to be brought up a good-natured child. She will be well-groomed and attractive, according to her guardian, the Manitoba Government. She will have at least as many accessories as can be provided her in the stress of these hard times, but she must not grow up too fast.

Thousands of Canadians would like to grow up with the far-north seaport on Hudson Bay, which is to be opened this summer. The province, zealously guarding the welfare of little Churchill, long-hoped-for prairie outlet to the sea, plans an orderly development that will assure the town against unemployment.

No squatters will be allowed to settle in the townsite, Hon. J. G. McKenzie, Minister of Natural resources, has decided. Guided by painful experience in the cases of such settlements as Cranberry Portage and Flin Flon, in Manitoba's central mining district, where squatters have created a major problem to the government, Manitoba is going to see to it that Churchill thrives on a better-planned settlement.

Shortage of government funds may make Churchill's baptism a rather less pompous procedure than the administration hoped a few months ago. Mr. McKenzie said it had been originally planned to expend \$150,000 in getting the town launched in proper fashion. Local conditions demand careful sanitary precautions in the form of adequate sewerage, a pure water supply and fire-proof buildings.

But such an amount of money will not be available this summer. For initial work making possible the town's opening, Mr. Mackenzie expects an outlay of \$50,000 will be necessary. This amount probably will be spent.

Hundreds of persons who want to start business in Churchill at the outset of the career have created a problem for Mr. McKenzie's department. Those who are given the right to open businesses, whether hotels, theatres or stores, will need capital back of them, the Minister said, as they will have to figure to a large degree on seasonal business.

The government does not want a horde of unemployed at Churchill during the long winters of inaction when the port is closed and business is at a standstill. Those in the government service who have charge of plans for the town say it would be cruel to allow a population to get started there which would be without the means to get proper shelter, food and fuel during the winter.

So the slogan for Churchill will be orderly development "within the bounds of reason." The population to start with must of necessity be very small, within the bounds of what work and business is necessary.

There will be railway yards, ocean commerce, docks, grain elevators, warehouses and other basic businesses to start with. In time industry will develop on Dominion property, which will be leased for industrial purposes. The province, though owning the townsite, has no land for industrial purposes.

It was pointed out by Mr. McKenzie that nothing would be gained by allowing people to rush helter-skelter into Churchill. It will not be a boom-town; no land speculation will be permitted. All property will

be leased by the province. No one will be allowed to obtain property and then hold it for a long time without developing it.

The flimsy houses, tents and other traditional phenomena that rose in bygone boom-towns will not be a feature of Churchill's early life. First buildings are expected to be fire-proof hotels and well constructed boarding houses. To permit any other launching of the town, it is held, would retard its proper development for many years.

It is likely that a temporary sewerage system will be installed this summer for the hotels and boarding houses that may be built.

Garden In Death Valley

Recent Rains May Duplicate Phenomenon Of Two Years Ago

Death Valley in California, may become a veritable flower garden this spring.

Recent rains, the heaviest in years, have created a lake fifty miles long. The sink of Death Valley, several hundred feet below sea level, is the lowest spot in the United States. Generally rains, when they fall in the valley, vanish quickly in the intense heat.

Returning from a trip to the Valley, Percy Brite, chairman of the Bakersfield Board of Supervisors, brought news of Death Valley's latest marvel.

Those acquainted with the district expect the valley to reproduce the unusual phenomenon of two years ago, when a series of rains caused dormant seeds to sprout and the valley became a wilderness of brilliant wild columbine, blue larkspur, delphinium, blue bells, daisies, wild geranium, buttercups, poppies, Indian paint brush and cactus flowers.

"Is your wife fond of listening in?"

"Not half so much as she is of speaking out."

Canadian Trade Ship

Returns To Canada After a Two Months' Cruise Through Caribbean Sea

After a successful two months' cruise through the Caribbean sea, the S.S. New Northland, Canadian trade exhibition ship, returned to Halifax, recently.

The vessel, referred to as "the floating show window" of Canada, left Halifax on January 8. Since that date she has called at Bermuda, the Leeward Islands of St. Kitts, Nevis, Antigua, Montserrat and Dominica, Barbadoes, the Windward Islands of St. Lucia, St. Vincent and Grenada, Trinidad, British Guiana, Jamaica, Cuba and the Bahamas.

Canadians on board, representatives of governments and businesses, were in an advantageous position to see and learn about business conditions in the West Indies. The party regarded the trip as successful in its mission of establishing business connection and promoting goodwill.

A desire was evident to use Canadian goods in preference to United States articles, it was stated, this feeling arising from the Canada-West Indies treaty of 1925; partly from the service offered by the Canadian National "Lady" Boats and partly because of the strong pro-Empire feeling which exists.

While no figures were available, representatives of firms which sent exhibits on the boat secured many valuable orders while in the south and established contacts which may be expected to produce much business in the future.

Disarmament Question

The mere reduction or abolition of the modern defensive armaments of peace-loving nations, of which Great Britain is second to none, cannot prevent war. Scythes and bill-hooks proved themselves, in olden times, formidable weapons of offence, and so they would again if the manhood of any virile nation found offensive measures necessary to procure the necessities of life for themselves, their wives and families.—J. E. T. Harper in the National Review (London), England.

Europe's oat production last year was greater than in 1930.

Great Bear Lake Area Believed To Be One Of The Richest Mining Regions In The World

The Silver Lining

People Live Longer During Depression Says B.C. Professor

Depressions have their silver lining, according to Prof. H. F. Angus, head of the Department of Economics and Sociology at the University of British Columbia.

"You live longer when there's a slump in business, unless you are one of those unfortunates who feel the situation so keenly that you jump from the tenth storey or borrow a gun," said Prof. Angus.

The death rate records of 53 cities in Canada for 1931 were 45,819, compared with 47,235 in 1930, a drop of three per cent.

"You see, economic conditions in years of depression force the majority of us to adopt a simpler form of living," explained Prof. Angus. "There is less over-eating, less night life and luxurious habits."

Enforced diets in many cases have led to abandonment of rich foods, he added. Industrial accidents had also been lessened by the curtailment of factory operations.

"However, it isn't only the depression that has given us a lower death rate," he said. "Better knowledge of sanitation, control of disease and general intelligence of the public in health matters in civilized countries are really the chief factors."

Railway Officials Retire

Announcement was made recently of the retirement of two prominent traffic department officials of the Canadian National Railways. H. H. Melanson, assistant traffic vice-president, and Thomas Lorne MacDonald, freight traffic manager, central region. The retirement of Mr. Melanson, concluding 43 years' service, was effective March 9, and that of Mr. MacDonald, which terminated 45 years' service, on March 15.

Where there's a will there's usually a contestant.

School memories of Great Bear Lake are due for rigid revision in the light of discoveries of prodigious mineral wealth in that region. Early maps revealed a huge wilderness between Edmonton and the icy shores of the Arctic in which Great Bear Lake was the last of several large bodies of water, lonely and remote. Students often wondered at the mysterious ways of nature in creating so large an area for no apparent purpose.

Dr. Charles Camsell, Deputy Minister of Mines for Canada, speaking in the conservative manner of the scientist, told a Sudbury audience of mining men of his hopes for the new mining region, which is so rich in various minerals, especially pitchblende, the ore that carries radium.

"It appears the pitchblende deposits will be as rich as, and possibly richer than any of the other known deposits in the world," he said. The importance of this find from the standpoint of the treatment of cancer may be imagined. In the same address Dr. Camsell said the value of the mineral products of Canada exceeded the value of the wheat crop, a statement doubtless based on the recent low price of wheat.

Only the aeroplane has made the wealth of Great Bear Lake something of practical importance. As long ago as 1771 Samuel Hearne brought news of great wealth in native copper from the Coppermine River, which flows into the Arctic further east toward Hudson Bay. Physical difficulties made exploration of this region impossible for the next century and a half. Enough has been revealed in recent years to show the triangle between the Mackenzie River, Great Bear Lake and the shore of the Arctic west of the Coppermine, is one of the richest mining regions of the world.—Toronto Globe.

One Of Hardest Jobs

Faced By Mounties In Recent Hunt For Trapper

Truth, they say, is stranger than fiction. And had any novelist written an imaginative story corresponding to the truth behind the hunt in the sub-Arctic regions of Canada for the "crazy" trapper, Johnson, it might have been regarded as far-fetched.

Those who sit in comfort here can have little conception of the hardships and adventures the posse of Royal Canadian Mounted Police and their aides experienced, while pursuing this extraordinary man in the Arctic wastes. He had illimitable space to manoeuvre in and he was insured to cold. Had he not been an exceptional man himself, plus having a mental kink that made him impervious to suffering, he would have been run down long before, or succumbed to the rigorous conditions. Right to the dramatic end he put up a remarkable fight and died with his boots on.

Tough as the Mounted Police are, this was one of the hardest jobs, if not the hardest, they had ever tackled. But they lived up to their name and fame, as they always do. They may well pray, however, to be delivered from such an adventure again for it cost the life of one gallant man and serious injuries to two others.—St Thomas Times-Journal.

ROUSING WELCOME GIVEN WORLD HOCKEY CHAMPIONS ON RETURN FROM CONQUESTS

When Canada's Olympic hockey champions, the Winnipeg team, returned a few days ago to the Manitoba capital after their conquest of the amateur hockey citadels of the world, they were accorded a wildly enthusiastic welcome by the home-town supporters. Thousands of Winnipeg's most rational citizens forgot decorum as they tossed hats in the air, thumped each other on the back and shouted themselves hoarse in honor of the champions. Long lines of impressive floats and gaily decorated cars participated in an enormous parade that proceeded through crowded streets from the Canadian National station to the Amphitheatre rink, where the Winnipeg team were officially welcomed by civic and government officials. (1) Hockey champions. (2) Frank Frederickson, captain of former Olympic champions, congratulating Bill Cockburn (right), captain of the victorious Winnipeg team. (3) Champions (top) passing through station on arrival home. (4) Champions getting an enthusiastic welcome in front of the station.

"Fritz, would you like a little brother or a little sister for Christmas? I will speak to your mother about it."

"If it is all the same, father, I would rather have a rockinghorse."—Lustige Kolner Zeitung, Cologne.

"What do you want?"

"I want to say that the post in which I have slaved for the past five years is the worst job ever—that your firm is nothing but a swindle—that you are the biggest bully and slave-driver possible—and that I have inherited a fortune and wish to give up my job!"—Vikingsen, Oslo.

COMFORT for COLICKY BABIES ... THROUGH CASTORIA'S GENTLE REGULATION

The best way to prevent colic, doctors say, is to avoid gas in stomach and bowels by keeping the entire intestinal tract open, free from waste. But remember this: a tiny baby's tender little organs cannot stand harsh treatment. They must be gently urged. This is just the time Castoria can help most. Castoria, you know, is made specially for babies and children, it is a pure vegetable preparation, perfectly harmless. It contains no harsh drugs, no narcotics. For years it has helped mothers through trying times with colicky babies and children suffering with digestive upsets, colds and fever. Keep genuine Castoria on hand, with the name:

Wm. H. Fletcher
CASTORIA
CHILDREN CRY FOR IT

WORLD HAPPENINGS BRIEFLY TOLD

M. A. Sauvage, a French inventor, who said he had invented a "crash-proof" plane was officially forbidden to stage a demonstration crash.

President Hoover signed the bill authorizing the distribution of 40,000,000 bushels of United States farm board wheat to feed the unemployed.

"Unforeseen delay at the Canadian end" has temporarily held up progress on the trade treaty between Canada and New Zealand.

After a successful two months cruise through the Caribbean Sea, the "S.S. New Northland," Canadian trade exhibition ship, has returned to Halifax.

The High Commissioner for Canada and Mrs. Howard Ferguson have taken up residence at 7 Cleveland House, St. James' Square, S.W. I., in London.

Lady Bessborough, wife of Canada's Governor-General, arrived in London from Canada for a brief holiday. She was met at the station by her son, Lord Duncannon.

Consenting to become the captain of the Sunningdale Ladies' Golf Club, the Duchess of York becomes the first member of the Royal Family to hold a golf club captaincy.

March Winds

Hurt the Complexion

Keep the skin perfectly healthy by washing with Baby's Own Soap using tepid or warm water and drying perfectly, and the keenest winds will do no lasting damage. This is the prevention which will save much disfigurement and the necessity of hiding blemishes under powder and cosmetics. The soothing and fragrant lather of Baby's Own Soap is wonderfully agreeable. Individual cartons—10c. everywhere.

"Best for you and Baby too"

Easy To Answer

A freshman at Indiana University taking out a permit to use his car while in residence, found himself confronted by the following question: "Purpose for which car is to be used?" In the blank he wrote: "To ride in."

Try Lydia E. Pinkham's Vegetable Compound

She Shouldn't be Tired

No energy... circles under her eyes. If she would only try Lydia E. Pinkham's Vegetable Compound in tablet-form, she could be strong and happy again.

British Art Exhibit

Exhibition Is Sponsored By the National Gallery Of Canada

A comprehensive and representative exhibition comprising some of the best examples of contemporary British art, sponsored by the National Gallery of Canada, was officially opened by His Excellency the Earl of Bessborough, Governor-General of Canada. Arranged by the National Gallery, in co-operation with the director of the National Gallery of British Art in London, England, the exhibition has been collected for the purpose of acquainting the Canadian public with the work of present day English artists. After a month's showing here it will be sent to other Canadian cities.

Announcement was made that the Governor-General had consented to become honorary president of the National Gallery.

Perhaps the most marked feature of the exhibition is the wide diversity of style revealed by the individual paintings. Numbered among the 125 paintings which comprise the exhibition are examples of the work of practically every artist of importance now living in England.

There are outstanding pictures by Sir William Orpen, R.A.; Augustus John, R.A.; a self-portrait of Sir William Rothenstein, a fine example of the famous painter's work, Professor Henry Tonks, and many other artists of note.

Bad Attacks of Flu

E. M. Ward Finds Wonderful Pick-Me-Up in Dr. Williams' Pink Pills.

Brings
Wonderful
Vitality.

"I have had attacks of the 'flu' frequently since 1919, and sometimes very bad attacks, but always when on the road to recovery I take Dr. Williams' Pink Pills and I find them a wonderful pick-me-up."

So writes E. M. Ward, Saskatoon, Sask., who further states: "I would recommend Dr. Williams' Pink Pills to all sufferers from that rundown, listless feeling. I have taken the Pills on many occasions, and they seem to tone up my blood wonderfully. I have been anaemic for years, and find that, when I get run-down, after taking several boxes of Dr. Williams' Pink Pills the color comes back to my cheeks and I have wonderful vitality."

Dr. Williams' Pink Pills rebuild health by creating new blood and increasing the red blood cells which restore the wasted tissues and revitalize the exhausted system. They remove the cause of rundown or nervous conditions. Try them. At your druggist's. 50c a package. 271

Recipes For This Week

(By Betty Barclay)

STEAK EN CASSEROLE

- 2 pounds round or rump steak.
- 1/2 cup flour.
- Salt and pepper.
- 2 tablespoons fat.
- 1 teaspoon sugar.
- 2 onions.
- 1 green pepper.
- 2 carrots.
- 2 cups canned tomatoes.

Season the flour with salt and pepper and pound it into the steak with the edge of a heavy saucer. Brown the meat in a hot frying pan. Transfer to a casserole and add the sliced onion, chopped green pepper, sliced carrots, tomatoes and sugar. Cover and allow to cook slowly for two hours, or until meat is tender. This may be served right from the casserole.

COFFEE COOKIES

- 1/2 cup butter.
- 1 1/2 cups coffee.
- 2 eggs.
- 1 cup sugar.
- 3 cups flour.
- 2 teaspoons baking powder.

Cream butter. Add sugar, eggs well beaten, and cold coffee. Then add flour, work smooth. Roll thin and bake in moderate oven. Grease pan with butter and card mixed.

Wrecked Motorist (opening his eyes): "I had the right-of-way, didn't I?"

Bystander: "Yeh, but the other fellow had a truck."

After all, my dear, she's only a Suicide Blonde."

"Suicide Blonde?"

"Yes. Dyed by her own hand!"

HER HUSBAND TEASED HER

But not for long!

"I started taking Kruschen Salts for biliousness, and for the last two years I have been perfectly free from an attack. Now I continue to take them, as I find they keep me in perfect health. My husband used to joke about me taking Kruschen Salts; now he takes them himself, so do my children. My sincere thanks."

—Mrs. G. P. When your gastric or digestive juices refuse to flow, your food, instead of becoming absorbed into your system, simply collects and ferments inside you, producing harmful acids and gases which give rise to biliousness, heartburn and flatulence.

Kruschen is a combination of six mineral salts, which goes right to the root of the trouble. It first stimulates the flow of gastric and other juices to aid digestion, and then ensures complete, regular and unflinching elimination of waste matter every day. And that means a blessed end to biliousness, and a renewed and whole-hearted enjoyment of your food without the slightest fear of having to pay the old painful penalty.

FREE TRIAL OFFER

If you have never tried Kruschen—try it now at our expense. We have distributed a great many special "GIANT" packages which make it easy for you to prove our claim for yourself. Ask your druggist for the new "GIANT" 75c. package. This consists of our regular 75c. bottle together with a separate trial bottle—sufficient for about one week. Open the trial bottle first, put it to the test, and then, if not entirely convinced that Kruschen does everything we claim it to do, the regular bottle is still as good as new. Take it back. Your druggist is authorized to return your 75c. immediately and without question. You have tried Kruschen free, at our expense. What could be fairer? Manufactured by E. Griffiths Hughes, Ltd., Manchester, Eng. (Established 1750). Importers: McGillivray Bros., Ltd., Toronto.

Would Purchase Large Farm

Inquiry For Land Is Received By Prince Albert Board Of Trade

Two young married men with the highest possible academic education in agriculture obtainable in Europe, may be established on a 2,000 or 3,000 acre farm in northern Saskatchewan, if suitable land is available.

They are desirous of immigrating to Canada and engaging in farming, their brother, Dr. Alex. C. Rab, of Dayton, Ohio, stated in a letter received by Prince Albert Board of Trade.

Dr. Rab asks the Board of Trade for agricultural possibilities in this district, and ideas about the amount of undeveloped farm land, the condition of soil as to productivity of crops and pasturage, the climate with reference to animals and crops, as well as general facts.

He intends to help his brothers financially as much as he is able, and wants to obtain a site of about two or three thousand acres, not very far from a city. Dr. Rab thinks this land ought to bring returns to those developing it in about fifteen or sixteen years.

Johnnie (seeing something very tasty going into the sick-room) — "Mumme, can I have the measles when Willie has done with them."

Reduce the Acid

SICK stomachs, sour stomachs and indigestion usually mean excess acid. The stomach nerves are over-stimulated.

Too much acid makes the stomach and intestines sour. Alkali kills acid instantly. The best form is Phillips' Milk of Magnesia, because one harmless dose neutralizes many times its volume in acid. For 50 years the standard with physicians everywhere.

Take a spoonful in water and your unhappy condition will probably end in five minutes. Then you will always know what to do. Crude and harmful methods will never appeal to you. Go, prove this for your own sake. It may save a great many disagreeable hours.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians in correcting excess acid.

SUNDAY SCHOOL LESSON

MARCH 20

JESUS DIES ON THE CROSS

Golden Text: "Christ died for our sins according to the Scriptures." — 1 Corinthians 15:3.

Lesson: John 18:1 to 19:42.

Devotional Reading: Romans 5:1-8.

Explanations and Comments

The Trial Of Jesus, verses 1-16.—"We see the various actors in the drama—Caiaphas, Herod, Pilate—all falling into place, as at some mystic signal; each doing something that had to be done, each doing something dictated by the grossness of his nature, and thus something for which he is answerable; but also doing something that was an unconscious fulfillment of a program; and Jesus Himself passing through all these scenes with the sublime steadfastness of one who knows that thus it must be. This is the joy of the cross. Jesus has not lost His way. He moves steadily to His goal. He is no victim of accident—at every step something was done that the will of God made necessary and inevitable." — W. J. Dawson.

On the Way To Calvary and Crucifixion, verses 17-19.—Roman soldiers threw a red cloak around Jesus, placed a crown of thorns upon His head in imitation of the laurel wreath worn by Roman emperors on festive occasions, and put a reed in His hand as a mock sceptre. Then they spat upon Him, struck Him, and jeered Him. When wearied of this sport they led Him away to be crucified. The procession started with a herald at the head bearing a board on which was written the Prisoner's "crime"—Jesus of Nazareth, the King of the Jews. After Him came a centurion with four soldiers, carrying nails and hammers. Then came Jesus bearing His cross, the two thieves with their crosses, all closely guarded by Roman soldiers, and followed by a motley crowd of men and women, enemies and sympathizers with Jesus, priests and disciples.

Through the city gate they went. Soon Jesus' strength failed; He was unable to stagger along under His cross. The soldiers themselves would not carry it, and meeting Simon of Cyrene, they compelled him to carry it on to the hill called Golgotha, or Calvary. There Jesus was nailed to the cross and the cross erected, with the thieves on either side of Him.

Jesus' Solitude For His Mother, verses 25-27. With the loyal women friends who stood by the cross—Salome, Mary the wife of Clopas, and Mary Magdalene—was Mary His mother.

"If I were hanged on the highest hill I know whose love would follow me still, Mother o' mine."—Kipling.

Jesus looked upon His mother and upon John, and said to Mary, "Woman, behold thy son," and to John, "Behold, thy mother!"

The Death Of Jesus, verses 28-30. Read here Matthew 27:45, 46; Mark 15:33, 34. John records Jesus' cry, "I thirst," and at the same time writes, "that the scripture might be accomplished." This does not mean that Jesus uttered the cry so as to fulfil scripture, but that, as John, looked back upon the scene in later years he saw, as he wrote, that it did fulfil scripture.

Near at hand was a vessel full of vinegar, the "posca," or wine, which was the usual drink of Roman soldiers. A sponge was fastened to the end of a branch of hyssop, filled with the vinegar, and held up for Him to drink. Jesus received it, and then exclaimed "It is finished," as His head fell and His spirit left Him. Finished, in the sense of ended, were His sufferings, and finished, in the sense of completed, was the sacrificial offering. "It is a triumphant exclamation, meaning: 'God's will is obeyed; man's redemption is secured; immortal victory is won; Heaven is open to man; the gloom of the grave is changed into the glory of resurrection and ascension with Christ!'"

Persian Balm is the one true family aid for skin health and beauty. Aids the mother in additional loveliness. Protects the tender skin of the child. Delights the father as a hair fixative or cooling shaving lotion. No matter to what use it is put, it is always beneficial to the skin. Every woman should use it. Persian Balm cools and caresses the skin and creates complexions of surpassing loveliness.

Could Earn Something

"What profession is your boy going to select?"

"I'm going to educate him to be a lawyer," replied the farmer. "He's naturally argumentative and bent on getting mixed up with other people's troubles, and he might just as well get paid for his time."

Douglas' Egyptian Liniment is an excellent leg wash for stock. Also removes corns in horses and quickly relieves bruises, sprains, swellings and joint stiffness.

Mahogany is being used for firewood in cooking stoves in Panama.

Ladders For Everyone

Trying Out Experiment For Upper Berth In Pullman

The occupant of a lower berth will be able to sleep soundly in the future without worrying about somebody stepping in his face trying to get into the upper berth. Nor will he be disturbed in the middle of the night by the Pullman porter dragging a step ladder up the aisle for some belated passenger. Orders have gone out to fix permanent ladders on the side of all upper berths on trains operating between New York and Washington. If the experiment is successful, all Pullman cars will be so equipped. The ladders are folded in the bedding compartment of the upper berth during the day.

Miss Mate (just inherited large plantation): "I've had three proposals."

Miss Take: "Oh, for the land's sake."

STOP Coughs & Colds
among horses this inexpensive way helps serious trouble develop the
SPOHN'S
COMPOUND. Acts on mucous membrane. Gives quick relief. Used 40 years. at drug stores or direct. SPOHN MEDICAL CO., Goshen, Ind.

There is
NO ODOR
from FISH

or from
Vegetables cooked
in CANAPAR

Boiled, or steamed, fish comes out firm and solid, swimming in its own juice, when you seal it up in Canapar Cookery Parchment. No fishy odor. No gummy steamer or saucepan to clean out afterwards.

And vegetables are simply delicious. Using Canapar you can cook three at once in the same pot over one burner turned low. Canapar acts on them as it does on fish. Retains all the mineral salts and flavor.

Fat and juices from meat won't burn if you line your roasting pan with Canapar. No pan-scraping afterwards.

Canapar only costs 25 cents for a large envelope. You can use each sheet repeatedly because it won't absorb odors. Makes a perfect dish cloth because it is silky, strong, and doesn't spread lint.

Special Offer

CANAPAR is made by the makers of the famous PARA-SANI Heavy Waxed Paper in the Green Box. Most grocers, druggists and department stores have Canapar on sale, but if yours hasn't send coupon direct to the makers and we'll give you a new and unique book entitled "Leftovers", containing one hundred recipes as a bonus for your trouble.

Appleford Paper Products, Ltd., Hamilton, Ontario.

Enclosed find 25c for which please send me one full size package of CANAPAR COOKERY PARCHMENT and your 100 recipes for "Leftovers".

VALERA ELECTED PRESIDENT OF IRISH FREE STATE

Dublin, Ireland.—Eamon de Valera was elected president of the Irish Free State, Wednesday, March 9, by a vote in the Dail Eireann of 81 to 68.

The ministry is wholly Finne Fail—the De Valera party which, translated, means soldiers of destiny—and Labor, whose handful of votes will be needed to keep the De Valera government alive, was not represented.

The ministerial announcement was greeted with cheers from the galleries and from the Fianna Fail benches. The old government party, headed by former President William T. Cosgrave, had gone over to the benches allotted to the opposition, with Mr. Cosgrave occupying the seat so long filled by Mr. De Valera.

Voicing his opposition to the De Valera election, retiring President Cosgrave, declared: "I propose to give every opportunity to Mr. De Valera to develop his policy. We do not want an explanation policy; we want to see what he is going to do."

The De Valera victory never was in doubt. When the dail assembled after Catholic and Protestant religious services—Mr. De Valera and Mr. Cosgrave knelt near one another during solemn mass—the Fianna Fail put Frank Fahy in nomination for speaker. Mr. Fahy, one of the founders of the Irish volunteers in South Galway, was elected 78 to 71.

Then the youthful Deputy Kilroy proposed Mr. De Valera for the presidency. The motion was seconded by Deputy Traynor and was given support by two Independents whose votes had been doubtful, Deputies J. Dillon and O'Hanlon.

There was silence as the count was taken and then a burst of cheering when it was certain that Mr. De Valera had been selected.

The dail then adjourned while Mr. De Valera called on Governor-General James McNeill for an interview, the nature of which was not divulged, and for the purpose of receiving his formal appointment.

Dr. Grisdale To Retire

Deputy Minister Of Agriculture Will Be Superannuated

Ottawa, Ont.—The superannuation of Dr. J. H. Grisdale as Deputy Minister of Agriculture was announced by Robert Weir, Minister of that Department. Dr. Grisdale suffered a breakdown in health about a week ago and as a result asked for his superannuation, which has been granted. He had been Deputy Minister since 1919.

In making the announcement the minister expressed regret that one who had been so long in the service should find it necessary to ask for his superannuation on account of illness, which, no doubt, had been due to his arduous duties in the department. Dr. Grisdale will receive six months' leave with pay as from April 1, after which the superannuation takes effect. No successor to Dr. Grisdale has yet been chosen.

Preparing For Conference

Manufacturers In Canada Have Been Discussing Empire Trade

Toronto, Ont.—Preparatory work for the Imperial Economic Conference being held next July at Ottawa is proceeding in a promising manner, it was reported to the council of the Canadian Manufacturers' Association in executive session here. Numerous meetings of groups of manufacturers have been held to discuss British Empire trade, particularly trade between Canada and Great Britain, and considerable information has been collected.

Millionaires In Britain

London, England.—Great Britain has 540 "millionaires," according to the annual report of the inland revenue commissioners compiled on the basis of incomes exceeding £50,000 assessed for surtax last year. The report also stated there were 157 incomes exceeding £100,000 for the same period.

W. N. U. 1933

France Must Import Wheat

Placing Of a Fresh Duty On Canadian Grain Is Unlikely

Paris, France.—Reports that the French Government will place a fresh duty on Canadian wheat on the expiration of the Franco-Canadian trade treaty next June have no substantiation. It was learned the government has not reached any decision, and such action is described as very improbable.

It is pointed out France is bound to import wheat, as her own production is short, and duties would merely increase the cost of bread to the consumer without benefiting the domestic wheat producer. If any such action were taken it would have to be done under the so-called "padlock act" which authorizes the government to increase duties on certain products, mostly foodstuffs, including wheat, by decree without previous notice.

The ministry of agriculture put into force drastic restrictions on the importation of fresh fruits and live plants, which affect Canada among other countries. This however is a routine step to guard against the introduction of the parasite known as the "San Jose louse," which is of Californian origin.

Alberta Income Tax

Said To Be Least Drastic Of Any Of The Western Provinces

Edmonton, Alberta.—Adoption of a provincial income tax is inevitable if Alberta is to balance its budget, declared Premier J. E. Brownlee in the legislature, in moving second reading of the new tax under which the government expects to raise \$1,374,000.

Alberta would have the least drastic income tax schedule of any of the western provinces, the premier declared. He also remarked that even with the new imposts Alberta would compare favorably with Manitoba as the lowest taxed of any of the western provinces.

Criticism of the new taxation bill was made by F. H. White, Labor, Calgary, who said the tax encroached too much on the wages of single and married workers, and should be redrafted.

Premier Outlines Seed Plan

Federal Government Proposes Loan To Three Prairie Provinces

Ottawa, Ont.—The position which the Dominion Government has taken in respect to supplying seed and feed for farmers in the prairie provinces was outlined in the House of Commons by Premier R. B. Bennett.

In brief, the government proposed to advance the necessary monies by way of loans to the three prairie provinces. The provinces would give to the Dominion their own treasury bills in return. In the case of the Province of Manitoba, Mr. Bennett stated that "something less than \$700,000 would take care of requirements."

Back To the Garden

Gardening the Solution Of Present Day Ills Says University Professor

Vancouver, B.C.—"Back to the garden" rather than "back to the land," is the solution of many of present day ills, said Dr. A. F. Barss, Department of Horticulture, University of British Columbia, in an address before the Local Council of Women.

"Everyone hears the slogan, 'back to the land,' as being the cure of all economic ills," Dr. Barss said. "This is not the solution for everyone. Rather let them say 'back to the garden,' for there a large majority may find nourishment for the body and at the same time a cure for the soul."

Completes Long Journey

Winnipeg Man Hiked To Vancouver and Back

Winnipeg, Man.—Harry E. Sherman, the hardy hiker who set out for Vancouver from Winnipeg on June 13, 1931, has returned here after covering more than 3,800 miles on foot. Sherman walked the 1,879 miles to Vancouver in 49½ days but severe weather conditions and tired muscles slowed him considerably on the return journey and five months have elapsed since he left the Pacific Coast city on October 6. En route, he gave addresses at 503 schools.

VISITS CANADA

Lord Irwin, former Viceroy of India, is coming to Canada in April to give the inaugural address in Toronto in connection with a permanent lectureship established by the Massey Foundation. The object of the "Massey Lectures" will be to bring to Canada from the Motherland annually someone of outstanding eminence in some sphere of activity.

Thousands Honor Briand

People Of All Classes Showed Affection For Dead Statesman

Paris, France.—More than 10,000 persons—porters, shopkeepers, statesmen, and all intermediate ranks—filed through Aristide Briand's bedroom to do homage to the dead "Apostle of Peace."

By nightfall M. Briand's apartment was filled with flowers. These tributes ran all the way from an imposing piece sent by the German ambassador to single carnations left there by mid-inettes and wounded war veterans.

The family of the French statesman, who succumbed to a heart attack, was so touched by the genuineness of the affection shown him that the room was kept open two hours and forty minutes longer than had been planned.

School Children Insured

Protection Against Accident For Students At Moose Jaw

Moose Jaw, Sas.—Moose Jaw enjoys the unique position at the present time of being the first city in Canada and possibly on the North American continent to have an accident insurance policy covering school children.

A plan to cover students up to \$100 expenses in case of accident was presented to the members of the school boards and adopted.

The school boards, approximately one year ago, considered insurance plans for school children and at a recent meeting the members re-affirmed the stand they had taken at that time.

Crop Failure In Russia

Forty Million Peasants Will Require Food Relief

Riga, Latvia.—Official reports from Moscow confirm that no fewer than 40,000,000 Russian peasants, affected by the failure of the harvest in various parts of Russia last fall, will require food relief.

The districts affected are the Urals, West Siberia, the middle and lower Volga basins, Bashkyria and the northern parts of the Caucasus. The combination of the shortage and the necessity of supplying these peasants with grain has radically interfered with the Soviet Government's spring sowing program.

In the Ukraine in particular the backwardness of preparations for the spring sowing is causing Moscow great anxiety. According to official reports, not more than half of the grain required for sowing is ready.

The despatch of 1,000,000 tons of grain to the distressed regions was decreed by Josef Stalin, Soviet dictator, last month, but the movement is proceeding slowly because the Soviet railways are unable to cope with the additional traffic. Another hampering factor is the reluctance of affected districts to relinquish grain which officials contend is stored up.

Manitoba Farm Loans Board

Increased Deficit Is Shown For Fiscal Year Ended April 30, 1931

Winnipeg, Man.—Deficit of the Manitoba Farm Loans Association increased from \$168,874.18 to \$1,022,203 during the fiscal year ended April 30, 1931, according to a report submitted to the legislature by the Manitoba Farm Loans Board along with an audit report of the association.

The report was the first made by the new board, which took over direction of the association's activities in 1930.

Operating expenses of \$85,197.31 and writing off of \$768,159.44 under the board's new policy, accounted for the greatly-increased deficit, it was explained.

In an explanation of the association's condition, the report found fault with previous operation of the association. "The scheme could not have been a complete success from the commencement," it remarks setting out that the margin between the cost of the money borrowed for the purpose of making loans and the rate of interest charged the farmer-borrower was insufficient.

Russian Force Doubled

Soviet Garrison In Siberia Has Been Greatly Increased

Tokyo, Japan.—The Japanese Consul at Khabarovsk, Siberia, reported to the foreign office that the Soviet garrison there approximately had doubled in the last month.

Japanese authorities professed not to be alarmed, however, in spite of repeated reports of the sending of Soviet reinforcement troops in western Siberia. The war office estimated that the total Russian forces along the Ussuri frontier now is 50,000.

EXPORT MARKET FOR GRAIN IS MUCH STRONGER

Fort William, Ont.—There is a more optimistic ring to the report issued by the statistical branch of the board of grain commissioners dealing with the movement of western Canadian grain during February. The international export market is readier to absorb more export grain, southern hemisphere wheat is being used up and the Canadian carryover is likely to be much smaller than last year. The report says in part:

"During the past month a decided improvement has taken place in the international wheat market and prospects for an increased export movement of Canadian wheat appears to be very good indeed. Both France and Italy have made substantial concessions by increasing the percentage of foreign wheat millers are permitted to grind, France to 25 per cent. and Italy to 60 per cent. in southern and 40 per cent. in northern regions respectively. Germany is reported to be in urgent need of more wheat besides the substantial quantities of rye which it has been obtaining from Russia.

"The exportable surplus of Danubian countries is reported as almost completely exhausted and there is little likelihood of much wheat being exported by Russia for some time. Supplies from the 1931 crops appear to be entirely inadequate for home requirements in certain regions and there is urgent need of considerable quantities for food and seed."

To Prevent Unemployment

Alberta Asks Federal Government To Adopt Jobless Insurance

Edmonton, Alberta.—Adoption of a national scheme of unemployment insurance was urged upon the Dominion Government in a resolution which was passed unanimously by the provincial legislature.

Moved by A. Smeaton, Labor, Lethbridge, the resolution read: "Resolved that this assembly, being of the opinion that the results of unemployment can only be properly and adequately prevented by a federal or national scheme of unemployment insurance, acceptable to the provinces, urged the federal government the immediate necessity of such legislation."

Ottawa, Ont.—The Dominion Government intends to carry out its promise to conduct an investigation into a contributory scheme of unemployment insurance with employers and workers participating, it was officially stated today in connection with a resolution passed in the Alberta legislature for a federal or national scheme of unemployment insurance.

U.S. Relief Measures

Forty Million Bushels Of Wheat Available For Humanitarian Purposes

Washington, D.C.—Within less than 24 hours after President Hoover had signed a bill making 40,000,000 bushels of the farm board's holdings available for humanitarian purposes, the Red Cross asked and received an allotment of 5,000,000 bushels.

From the board's elevators at Omaha, Nebraska, 14,000 bushels were immediately loaded into railroad cars and started for destinations in South Dakota where feed for livestock is needed.

Easter Recess For Commons

Ottawa, Ont.—The House of Commons will adjourn from Wednesday evening, March 23, until the following Tuesday. Premier Bennett indicated that this was the Easter recess proposed by the government. W. L. Mackenzie King, opposition leader, said he thought this would be satisfactory to his followers.

National Relief Fund

Toronto, Ont.—Slightly more than \$250,000 has been subscribed to date to the National Emergency Relief Fund, announced by Prime Minister R. B. Bennett, last December. Norman Sommerville, K.C., has stated. The total includes the amount raised under the Saskatchewan Emergency Distress Fund.

Time Out for a Smoke

A lull in the street fighting at Chapel gives two Chinese machine gunners shown above an opportunity for a smoke, and gives their deadly weapon time to cool off after working overtime in defence of the city. These men are typical of the 19th Chinese Route Army.

THE HOUSE OF DREAMS-COME-TRUE

— BY — MARGARET PEDLER

Author of "The Splendid Folly," "The Hermit of Far End," Hodder & Stoughton, Ltd., London.

CHAPTER XIV.—Continued

"Don't look so blue!" Claire's voice broke in upon her gloomy trend of thought. She was laughing, and Jean was conscious of a sudden uprush of admiration for the young gay courage which could laugh even while it could not look forward. "After all, there are compensations in life. You're one of them, my Jean, as I've told you before! Now let's talk about something else."

Jean responded gladly enough, and presently Sir Adrian was temporarily forgotten in the little intimate half-hour of woman-talk which followed.

CHAPTER XV.

Lady Anne's Disclosure

"Well, have you enjoyed yourself?" enquired Lady Anne when Jean returned. "I suppose so, as you stayed to tea"—smiling.

"Oh, I had tea with Claire. Sir Adrian was away"—with a small grimace—"so we had quite a nice little time together. But, yes, madonna"—Jean had fallen into the use of the gracious little name which Blaise and Nick kept for their mother—"I really enjoyed myself very much. Judith was ever so much nicer than I expected."

"So now, I suppose, we shall all be side-tracked in favour of Burke and his sister?" put in Blaise, who had been listening quietly. There was a

sharpness in his tones, as though the prospect did not please.

Jean smiled at him engagingly.

"Of course you will," she replied. "I invariably side-track old friends when I get a chance."

"Oh, you'll get the chance right enough!"—rather sulkily.

"Yes, I think I shall"—demurely.

"Geoffrey has always been nice to me; and now Judith, too, has succumbed to my charms, and says she hopes we shall be good pals."

Tormarin rose, pushing back his chair with unnecessary violence.

"I don't think I see Judith Craig extending her friendship to Glyn Peterson's daughter," he commented cynically.

An instant later the door banged behind him and Lady Anne and Jean looked across at each other smiling, as women will when one of their man-kind proceeds to behave exactly like a cross little boy.

But a quick sigh chased the smile from Lady Anne's lips.

"Poor old Blaise!" she murmured, as though to herself. Then, her grey eyes meeting Jean's squarely, she said quietly:

"Jean, you're so much one of us, now, that I should like you to know what lies at the back of things. You'd understand—some of us—better."

Jean turned impulsively.

"I don't need to understand you," she said quickly, "I love you."

"Thank you, my dear," Lady Anne's voice trembled slightly. "If I were not sure of that, I shouldn't tell you what I am going to. But I want you to understand Blaise—and to make allowances for him, if you can."

Jean pulled forward a stool and settled herself at Lady Anne's feet.

"Do you mean about the 'mark of the beast'?" she asked, smiling a little. "Blaise told me to ask you about it one day."

"Did he? He thinks far too much about it and what it stands for"—sadly. "It has come to be almost a symbol in his eyes. You see, he too has suffered from the family failing—the very failing that was responsible for that white lock of hair."

Lady Anne looked down at her thoughtfully.

"Well, there's no need for me to tell you that the Tormarins have hot tempers! You've seen evidences of it in Blaise—that sudden flaming up of anger. Though he has learnt through one most bitter experience to hold himself more or less in check." She paused a moment, as if her thoughts had reverted painfully to the past. Presently she resumed: "All the Tormarin men have had it—that blazing

uncontrollable kind of temper which simply cannot brook opposition. Blaise's father had it, and it was that which made our life together so unhappy."

So Destiny had been busy with her snuffers here, also!

"You—you, too!" whispered Jean.

"I, too?" Lady Anne questioned.

"What does that mean?"

"Why, it seems to me as if 'no one' is ever allowed to be really happy and to live their life in peace! There is Judith, whose life my father spoilt, and Clare, whose life Sir Adrian spoils—and that means Nick's life as well. And now—you!"

Some unconscious instinct of reticence deep within her forbade the mention of Blaise Tormarin's name.

"I expect we are not meant to be too joyful," said Lady Anne. "Though, after all, it's largely our own fault if we are not. We make or mar each other's happiness; it isn't Fate. . . . But I've had my share of happiness, Jean—never think that I haven't. Afterwards, with Claude, I was utterly happy."

She fell silent for a space, ceasing on that quiet note of happiness. Presently, almost loth to disturb the reverie into which she had fallen, Jean questioned hesitantly:

"And the 'mark of the beast,' madonna? You were going to tell me about it."

"It came as a consequence of the Tormarin temper. That's why Blaise calls it the 'mark of the beast.' It was just before he was born—when I was waiting for the supreme joy of holding my first-born in my arms. Derrick—Blaise's father—was an extremely jealous-natured man. He hated to think that there had ever been anyone besides himself who cared for me. And there was one man, in particular, of whom he had always been foolishly jealous and suspicious. I can't imagine why, though"—with a little puzzled laugh. "You would think that the mere fact that I had married him, and not the other man, would have been sufficient proof that he had no cause for jealousy. But no! Men are queer creatures, and he always resented my friendship with John Lovett—which continued after my marriage. I had known John from childhood, and he was the truest friend a woman ever had!" She sighed: "And I needed friends in those days! For somehow, brooding over things to himself, my husband conceived an idea that the little son who was coming was not his own child—but the child of John Lovett. I think someone must have poisoned his mind. There was a certain woman of our acquaintance whom I always suspected; she hated me and was very much attached to Derrick—she had wanted to marry him, I believe. In any case, he came home one evening, from her house, like a madman, and there was a scene . . . a terrible scene . . . he hurling accusations at me. . . . I won't talk of it, because he was bitterly repentant afterwards. As soon as the fit of rage was past, he realized how utterly groundless his suspicions had been, and I don't think he ever ceased to reproach himself. But that has always been the way! The Tormarins have invariably brought the bitterest self-reproach upon themselves. One way or another, the same story of blind, reckless anger, and its consequences, has repeated itself generation after generation."

"And then? What happened then?" asked Jean in low, shocked tones.

"I was very ill—so ill that they thought I should not live. But I did live, and I brought my baby into the world. Only he was born with that white lock of hair. And my own hair had turned perfectly white."

Jean was silent for a little. At last she said softly:

"I'm so glad, madonna, that you were happy afterwards. 'Your house of dreams' came true in the end!"

"Yes"—Lady Anne's grey eyes were very bright and luminous. "My house of dreams came true."

After a while, she went on quietly: "But my poor Blaise's house of dreams fell in ruins. The foundation was rotten. You knew, didn't you, that there was a woman he once cared for?"

Jean nodded. Speech was difficult to her just at that moment.

"It was a miserable business altogether. The girl, Neta Freyne, was an Italian. Blaise met her when he was travelling in Italy, and—oh, well, it wasn't love! Not love as I know it,

"I Robbed Your Dresser Drawer"

"This My Signature"

A certain city had an epidemic of house robberies in daytime. The robbers would ring doorbells and if anyone answered, they would make some excuse and depart. But, if no one answered, they would break in through a window or a skylight. One such robber left his finger print on a broken piece of glass. The police had that print on file. They knew the robber, his gang and their records. The crooks were all picked up and convicted. All because one of them had left his finger print.

Germs in Every Print

This is told to remind you that we all leave finger prints on everything we touch. Most of these prints are germladen. We pick them up from others—by handshakes—by touching things they have touched. Then we convey them to the mouth, where they breed and so get into the system.

Life Extension Institute lists 27 diseases which may be conveyed in this way. The most common is a cold. A hand used to check a sneeze or a cough may convey germs to others.

We cannot escape these germs. Every handshake, every touch conveys them. The best we can do is to remove the germs or render them harmless before they reach our food.

Safety This Way

Lifebuoy Soap is made to do this. Millions of people, in all countries of the world, protect themselves in this way. Lifebuoy contains an antiseptic. Careful laboratory tests have proved that Lifebuoy removes germs or makes them inactive.

Wash your hands with Lifebuoy often. Do this always before eating. Teach the children this habit, for safety's sake.

Stops Body Odour, Too

Lifebuoy is a beauty soap, made from two palm oils. No soap is better for your skin and complexion. Yet it offers you protection against germs every time you use it.

Also against body odour. Lifebuoy's creamy, abundant lather penetrates deep into the pores, cleansing them of the impurities that cause unpleasant odour. A bath with Lifebuoy, before you go on a party or before you start the day's work, insures you against body odour for many hours.

You will learn to love Lifebuoy's extra-clean scent of safety, which disappears in a few minutes, but tells you it purifies—and protects.

Keep Lifebuoy handy on your wash basin and bath so all the family can use it. Your dealer has Lifebuoy for you. Why not adopt it today?

Little Helps For This Week

"Teach me Thy way, O Lord, and lead me in a plain path."—Psalm xxvii. 11.

All is uncertainty;

Yet over all

One guideth steadily

Great things and small.

What will the issue be?

God guideth all.

—James Freeman Clarke.

There is no authority short of God. Look up to Him, expect His teachings. And though clouds of uncertainty may come, never let them make you turn your eyes away in discouragement, or think that on the earth you can find that guidance which is not a thing of earth, but which must come to us from heaven.

—Phillips Brooks.

Beira, Mozambique, has launched a port-expansion program.

Sorry To See Night Coming She Could Not Sleep

Mrs. K. McElroy, Kirkfield, Ont., writes:—"I was very nervous and run down, was short of breath, and had smothering feelings, and was sorry to see night coming as I could not lie down or go to sleep."

I was advised to use Milburn's Heart and Nerve Pills. I took seven boxes and am now completely relieved; can sleep fine all night, and have gained in weight."

Price 50c a box

Sold at all drug and general stores, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

HEADACHE

Nerves on edge. A head that throbs. You can't stop work, but you can stop the pain—in a hurry. Aspirin will do it every time. Take two or three tablets, a swallow of water, and you're soon comfortable. There's nothing half-way about the action of Aspirin. You will always get complete relief when you take these tablets.

These tablets should be in every shop, office, and home. Ready to relieve any sudden ache or pain, from a grumbling tooth to lumbago. Don't suffer with that neuralgia,

neuritis, rheumatism, etc.; or lose any time because of colds or sore throat. Get some Aspirin and just follow those proven directions for instant relief.

Aspirin tablets cost very little, especially if you buy them by the bottle. Any doctor will tell you they are harmless. They don't hurt the heart. They don't upset the stomach. So take them as often as you have the least need of their quick comfort. Take enough for complete results. On sale at drug stores everywhere. Made in Canada.
